

## Once More For The Road

This road has been a rocky one at times I though all help was gone  
But somehow you were always there to see me through  
In situations of despair I called and always found you there  
I must confess your love for me has been true  
I just don't have a reason, that would justify my leavin'  
All this way of life I've known with you behind  
But like a long day in the summer sun, this walk of life becomes a run  
And quittin' time weighs heavy on your mind

So it's one more I love you Jesus  
One more thanks for helpin' bear my load  
One more time I will praise you for the things you have done  
Just let me thank you once more for the road

This road has been a rocky one but then again I've had a lot of fun  
If I compare I know the good outweighs the bad  
A foe or two along the way I guess a few are here to stay  
But thank you Lord for the faithful friends I've had  
There've been some times I said I'd quit, but I am not that crazy yet  
Cause you've been the dearest friend of mine  
Just let me get down on my knees and pray and everything will be okay  
Without you Lord I know I'd lose my mind

So it's one more I love you Jesus  
One more thanks for helpin' bear my load  
One more time I will praise you for the things you have done  
Just let me thank you once more for the road  
Just let me thank you once more for the road
